SKILLS

- javascript
- react
- next.js
- html
- css
- sql

EXPERIENCE

- JUN 2022 - PRESENT

SOFTWARE DEVELOPER

Code by Istafa. Holtsville, NY

 - Designed and developed custom software solutions using JavaScript, Ruby, HTML, CSS, React, Next.js, and TypeScript to meet client needs.
 - Engaged with clients to understand their requirements, provided technical advice, and tailored software solutions to match their business goals.
 - Managed project timelines, coordinated with clients, and ensured timely delivery of high-quality software products.
 - Stayed updated with the latest industry trends and technologies, incorporating new skills and tools to enhance software solutions.
- MAY 2021 - JUN 2022

SOFTWARE ENGINEERING STUDENT

Flatiron School. New York, NY

 - Created and deployed full-stack web applications using JavaScript, Ruby, HTML, CSS, and React.
 - Worked in teams to design, develop, and present capstone projects, simulating real-world software development environments.
 - Participated in peer code reviews and debugging sessions, enhancing code quality and problem-solving skills.
 - Produced detailed technical documentation for projects, demonstrating the ability to communicate complex technical concepts clear and concise.

EDUCATION

- SEP 2016 - JUN 2018

CCNA-CERTIFIED CISCO NETWORKING ADMINISTRATOR

University of Farmingdale .. Farmingdale, NY
- MAY 2021 - JUN 2022

FULL STACK WEB DEVELOPMENT

Flatiron School. New York, NY

PROJECTS

- **SmartBuy**

- **Frontend Development:** Crafted with React to provide a dynamic, responsive, and interactive user interface.

- **Styling:** Utilized CSS to create a clean, modern, and user-friendly design, enhancing the overall user experience.

- **Backend Development:** Powered by Rails to efficiently handle complex business logic and ensure secure transactions.

- **Database Management:** Integrated PostgreSQL for robust and scalable data storage.

App Description:

Smart Buy is an innovative e-commerce platform inspired by Best Buy, designed to deliver an exceptional online shopping experience. The app boasts an intuitive interface that allows users to easily navigate a comprehensive product catalog. With secure user accounts and efficient order tracking, customers can effortlessly manage their purchases.
- **S.T.I.M.S**

- **Frontend Development:** Developed with React to ensure a dynamic, responsive, and interactive user interface.

- **Styling:** Utilized CSS to create a clean, modern, and user-friendly design.

- **Backend Development:** Built with Rails to efficiently manage complex educational data.

- **Database Management:** Implemented PostgreSQL for robust and scalable data storage.

App Description:

S.T.I.M.S (Student Teacher Integrated Management System) is an advanced educational management tool optimized for seamless teacher-student interaction and academic tracking. Key features include class schedules, a directory of all students and teachers, and academic performance tracking.
- **Maybelline Catalog Collection**

- **Frontend Development:** Built using React to deliver a dynamic and responsive user interface.

- **Styling:** Implemented with CSS to create a visually appealing and user-friendly design.

- **Backend Management:** Utilized a local db.json file to manage data.

App Description:

The Maybelline Catalog Collection app offers users a seamless and engaging experience in managing their favorite Maybelline products. Users can easily view, add, and delete items from their collection, as well as mark their favorite products for quick access.
